Chlamydia Testing

All you have to do is pee in a pot, it's that easy!

Twice a month we hold a drop in Chlamydia testing session in the Students' Union. Even if you don't think you have Chlamydia there is no harm in getting tested, it's free and all you have to do is pee in a pot.

If you get a negative result you will be sent a text message a week later, if you're tested positive for Chlamydia a nurse will call you to arrange a time you can pick up your antibiotics, that's all you have to do! Simple. You will even get free condoms, a lollypop and a voucher for £1.00 off any of our services in the Students' Union.

Drop in sessions start at 10am and finish at 4pm.
